

Contents

Introduction	1
1 Methods for drag decomposition	7
1.1 Aerodynamic drag	7
1.2 Entropy drag in 2D flows	9
1.3 Entropy drag in 3D flows	11
1.4 Lift induced drag	13
1.5 Breakdown of the entropy drag	15
1.6 Algorithms for region selection	17
1.6.1 Shock wave region	19
1.6.2 Boundary layer and wake region	19
1.7 Results	21
1.7.1 2D airfoil, inviscid flow	21
1.7.2 2D airfoil, viscous flow	23
1.7.3 Accuracy of the results	28
1.8 Wing-Body, viscous flow	33
1.9 Final remarks	34
2 Thrust-drag bookkeeping from CFD calculations	41
2.1 Thrust & drag	41
2.2 Thrust definitions	43
2.3 Thrust-drag bookkeeping	45
2.4 Entropy drag for 3D powered configurations	49
2.5 Applications	50
2.5.1 A simple model problem	50
2.5.2 Isolated turbofan nacelle	53
2.6 Final remarks	57
Appendix A	58
Appendix B	61
Bibliography	63
