

Table of Contents

	Page
Abstract	1
1. Introduction	5
2. Lift and Drag Equations	8
3. Expansion of Lift and Drag Equations	9
3.1. General Properties of Velocity Perturbation	10
3.1.1. Inside of the Model Wake Region	11
3.1.2. Outside of the Model Wake Region	12
3.2. Order of Magnitude Estimations	12
3.3. Density and pressure Perturbations	14
3.4. Lift Analysis	15
3.5. Drag Analysis	19
4. Profile and Enthalpy Drag	23
5. Wave Drag Extraction from Profile Drag	25
6. Maskell's Induced Drag	27
6.1. Properties of Maskell's Induced Drag Integral	28
6.1.1. Planar Wake Approximation	29
6.1.2. Elliptically Loaded Wings	31
7. Injected Mass Drag	32

CONTENTS

	Page
8. Drag Correction Terms	32
9. Results and Discussion	33
9.1. Lift Predictions	33
9.2. Drag Predictions	34
10. Conclusions	35
11. Appendix: Singular Wake Regions	37
