
An LES-APE Approach in Computational Aeroacoustics: Theory and Applications

Wolfgang Schröder*, Roland Ewert**, Thanh Ph. Bui*, Elmar Gröschel*

** Institute of Aerodynamics, RWTH Aachen University
Wüllnerstraße zw. 5 und 7, 52062 Aachen, Germany*

*** DLR, Institute of Aerodynamics and Flow Technology, Technical Acoustics,
Lilienthalplatz 7, 38108 Braunschweig, Germany*

April 2006

Contents

1	Introduction	2
2	Acoustic Equations	4
2.1	Source Filtering	4
2.2	Acoustic Perturbation Equations (APE) form 1	6
2.3	Acoustic Perturbation Equations (APE) form 2	9
2.4	Acoustic Perturbation Equations (APE) form 4	10
2.5	Acoustic Perturbation Equations for Reacting Flows (APE-RF)	11
2.6	Stability	12
3	Silent Inner Boundaries	15
4	Results	18
4.1	Trailing-Edge Noise	18
4.2	Jet Noise	19
4.3	Combustion Noise	22
5	Conclusion	24
6	Figures	25
