

Wind tunnel experiments on rotors and near wakes

W. Haans, G.J.W. van Bussel
Delft University of Technology

22-03 2007

Contents

1	Introduction	3
2	Wind tunnel experiments on rotors	5
2.1	Experiment scaling	5
2.2	Wind tunnel wall corrections	6
2.2.1	Closed test section	6
2.2.2	Open jet test section	7
3	Near-wake experiments	9
3.1	Experimental campaigns	9
3.2	Experimental results	9
3.2.1	Averaged velocity	11
3.2.2	Phase-Locked average velocity	12
3.2.3	Tip vortices	14
3.2.4	Wake meandering	16
4	Rotor blade experiments	19
4.1	Unsteady Aerodynamics Experiment	20
4.1.1	Experimental setup	20
4.1.2	Experimental results	21
4.1.3	Blind comparison	24
4.2	MEXICO	27
5	Measurement analysis tools	29
5.1	Inverse wake models	29
5.2	Wake models	32
6	Summary	33
A	Appendix	37
