

Small Urban Wind Energy Conversion Systems

Carlos Simão Ferreira

DUWIND - Delft University Wind Energy Research Institute The Netherlands

March 2007

Contents

1	Introduction	3
2	Urban Wind	3
3	Building concentrator effect	6
3.1	In the Vicinity of Buildings	6
3.2	Between Concentrator Buildings	8
3.3	Duct Building	10
4	Urban HAWT	10
5	The Vertical Axis Wind Turbine	12
5.1	Drag driven VAWT	12
5.2	Savonius rotor	12
5.3	Lift driven VAWT	13
5.3.1	Performance of VAWT	16
5.3.2	Dynamic stall on a VAWT	18
5.3.3	The evolution of dynamic stall in a VAWT: the case $\lambda = 2$	19
5.3.4	The effect of skew angle on VAWT	23
