

TABLE OF CONTENTS

List of Symbols

INTRODUCTION	1
1. HYPERBOLIC SYSTEMS OF CONSERVATIONS LAWS IN TWO INDEPENDENT VARIABLES	
THE EULER EQUATIONS IN ONE SPACE DIMENSION	2
1.1 Basic concepts for the analysis of wave propagation	2
1.2 First order accurate upwind schemes in one space dimension	7
1.3 Second order space accuracy	13
1.4 An implicit compact characteristic decomposition scheme	14
2. UPWIND METHODS FOR THE EULER EQUATIONS IN TWO SPACE DIMENSIONS	17
2.1 Basic concepts	17
2.2 Classical upwind methods in two space dimensions	31
2.3 Multidimensional splittings. The pattern recognition	36
