

INDEX

1. STATIC STABILITY

- 1.1. Aircraft Control
- 1.2. Aircraft Steady-State Conditions
- 1.3. Longitudinal Static Stability – Controls Fixed
- 1.4. Directional Static Stability – Controls Fixed
- 1.5. Lateral Static Stability – Controls Fixed

2. DYNAMIC STABILITY

- 2.1. Longitudinal Characteristic Equation
- 2.2. Routh's Criterion
- 2.3. Longitudinal Modes
- 2.4. Phugoid Mode – Approximate Equations
- 2.5. Short Period Mode – Approximate Equations
- 2.6. The Effect of CG location on longitudinal modes
- 2.7. Lateral Directional Characteristic Equation
- 2.8. Spiral Mode – Approximate Equations
- 2.9. Roll Mode – Approximate Equations
- 2.10 Dutch Roll Mode – Approximate Equations
