

Abdominal aortic aneurysm modelling: state-of-the-art *

F.N. van de Vosse
Department of Biomedical Engineering
Eindhoven University of Technology, The Netherlands

Contents

1	Abdominal Aortic Aneurysms	3
2	AAA Risk Stratification	4
3	AAA Biomechanical Analysis	5
3.1	Wall Stress Reproducibility	6
3.2	Initial Stress	7
3.3	Intraluminal Thrombus	8
3.4	Material Properties	9
3.5	Future Directions	11
4	Clinical Applications	11
5	Scope and Limitations	13
6	Clinical Perspectives	14
7	General Conclusion	15
