Surrogate and Reduced-Order Modeling for Optimization of Large-Scale Systems

Andrew March and Karen Willcox
Department of Aeronautics and Astronautics
Massachusetts Institute of Technology
June 2010

Contents

1 Surrogate modeling overview 4

2 Data-fit surrogates 6
   2.1 Response surface modeling ................................. 6
   2.2 Kriging ..................................................... 8

3 Projection-based reduced-order models 12
   3.1 Reduced-order models in optimization ....................... 12
   3.2 Projection framework ....................................... 13
   3.3 Proper orthogonal decomposition .......................... 15
   3.4 Parameterized reduced-order models ....................... 17

4 Hierarchical Models 19
