

CONTENTS

Nomenclature	i
1. INTRODUCTION	1
2. MATHEMATICAL MODEL	5
2.1. Definitions and kinematic relations	5
2.2. Equations of motion	7
2.3. Solutions of the equations	12
2.4. Stability criteria	14
2.5. Determination of the coefficients of the equations of motion	15
3. DYNAMIC STABILITY OF AN ACV WITH SKIRTS	20
3.1. Short description of the ACV design	20
3.2. Stability in heave, pitch and roll above ground	21
3.3. Stability in heave, pitch and roll above water	31
4. DIRECTIONAL STABILITY OF AN ACV WITH FIXED SIDE WALLS	36
5. CONCLUSIONS	40
References	42
